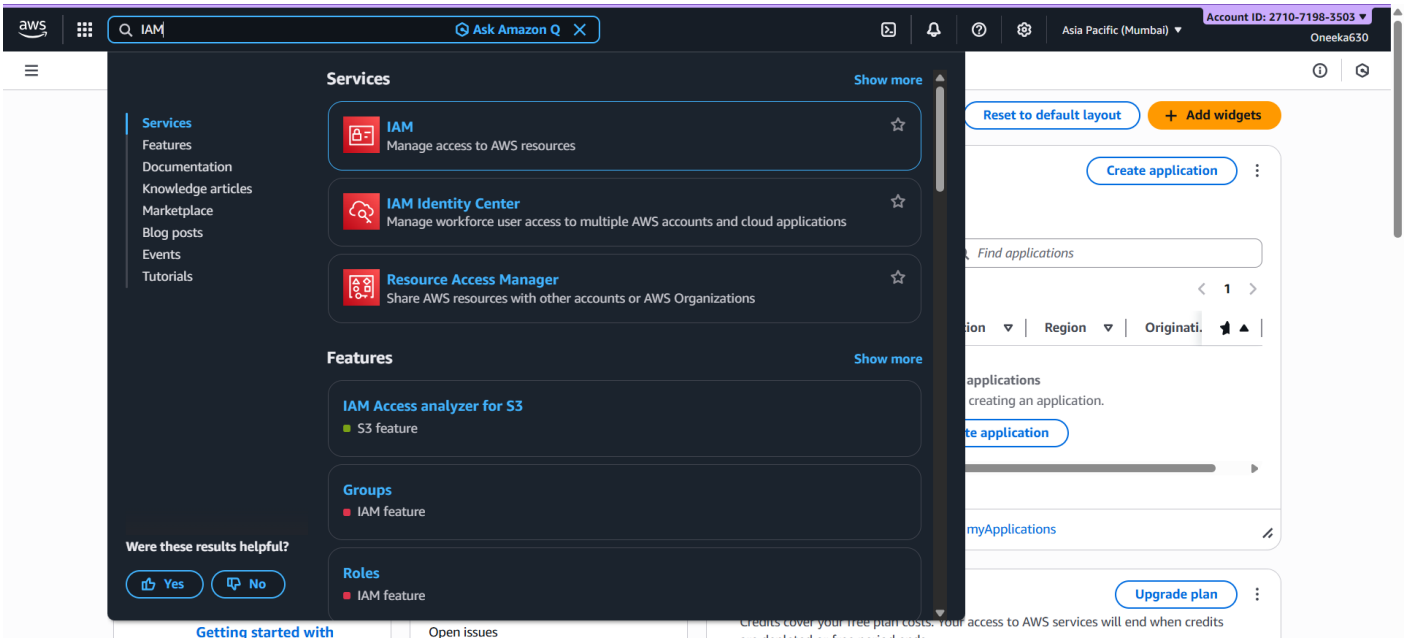
Assignment No.: 3

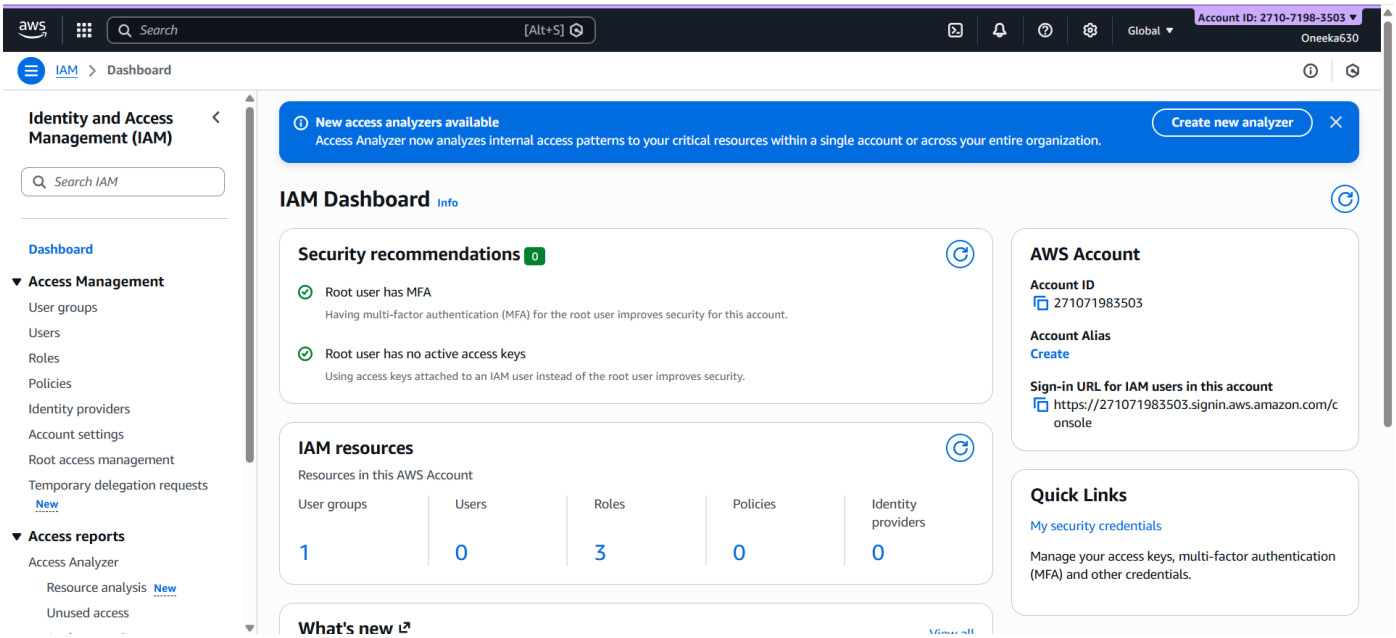
Problem Statement:1) Create IAM user and give full access to S3

2)Create a public bucket in AWS .Upload a file and give the necessary permission to check whether the file URL is working

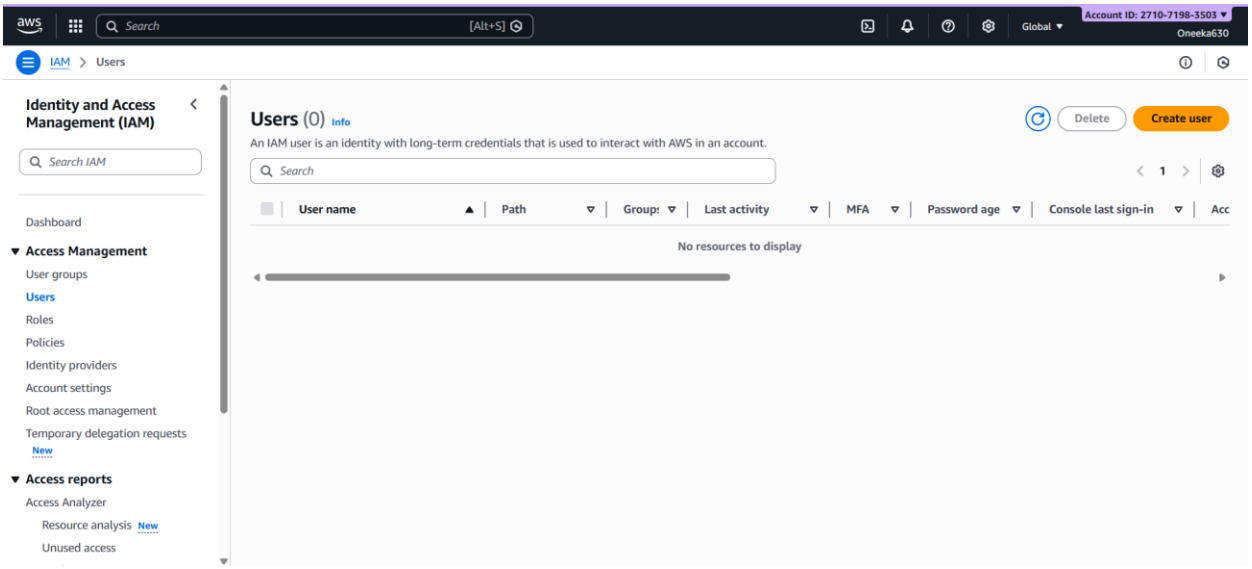
Solution:

Step1: Open IAM Service (In the AWS search bar, type **IAM ->**Click on **IAM (Identity and Access Management))**

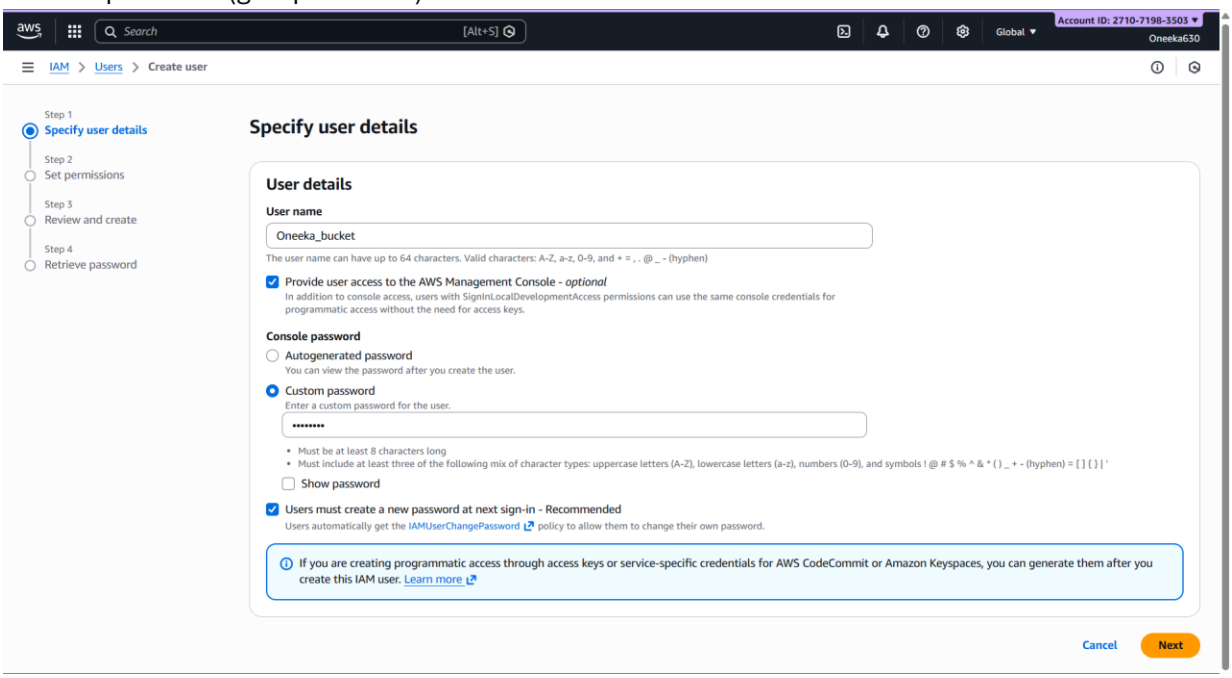




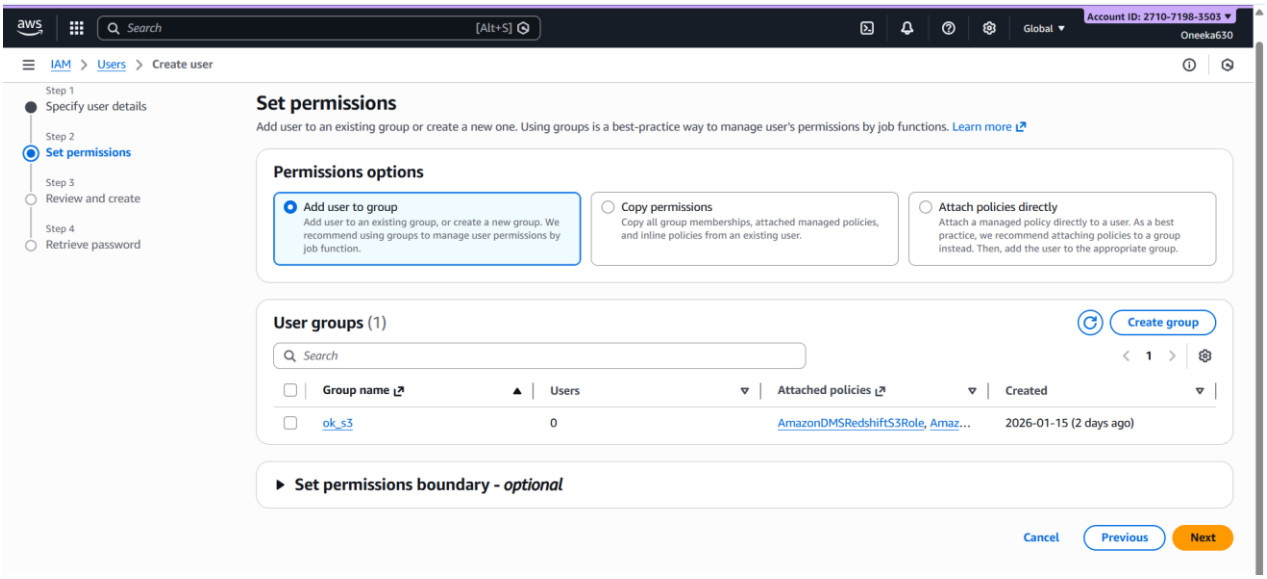
Step 2: click **Users**

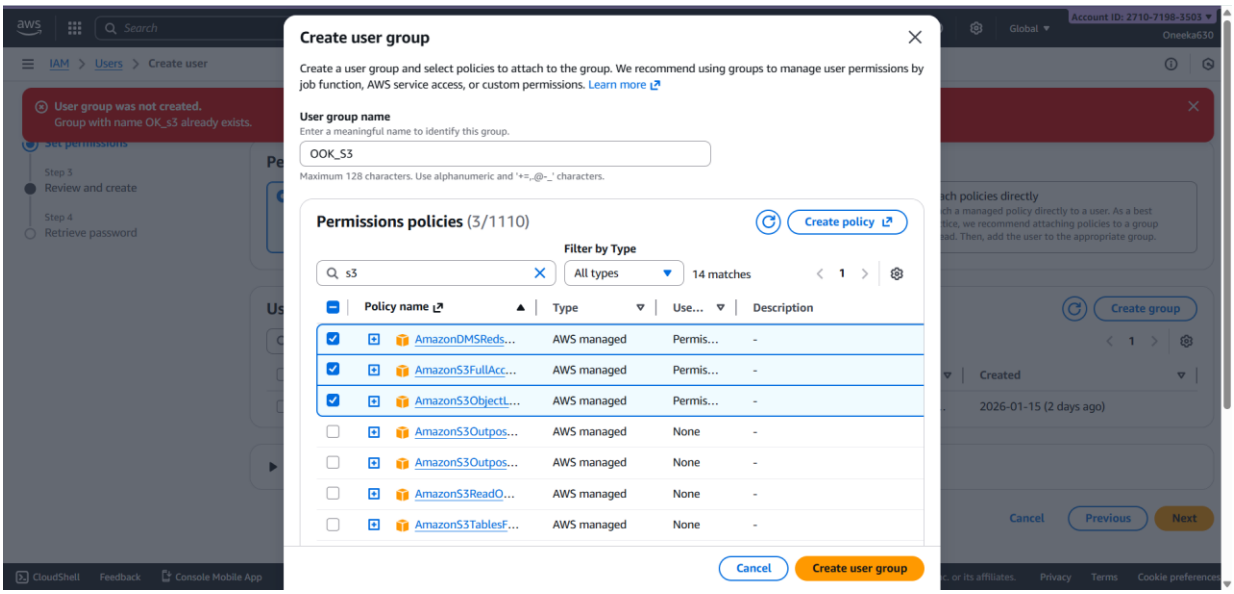


Step 3: Click **Create user->**Enter **User name->**Provide user access to the AWS Management Console->Select custom password(give password)->next

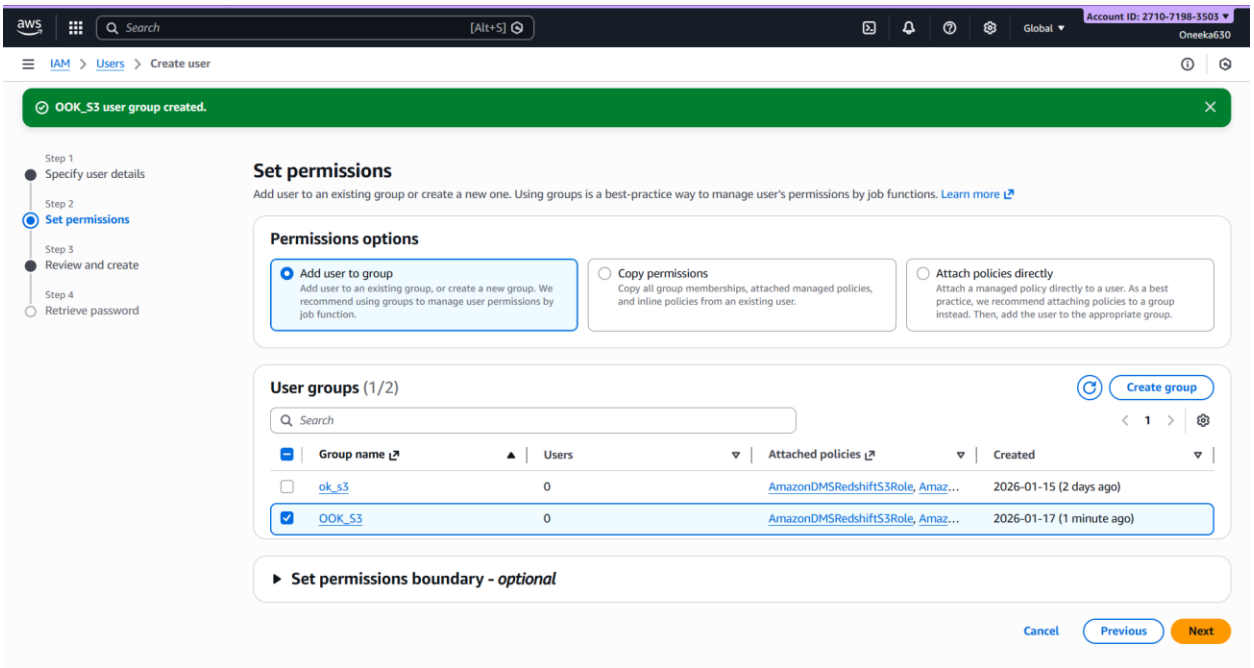


Step 4: click a Create group/select a group->give permissions(give group name ->Search s3 -> select permissions)->click create user group

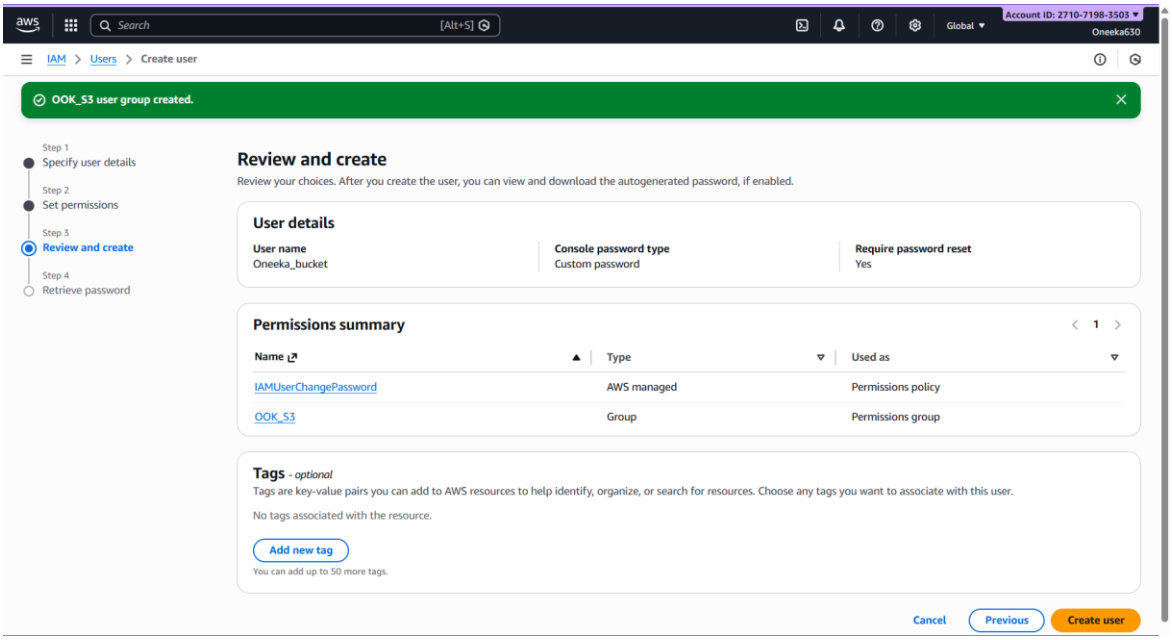


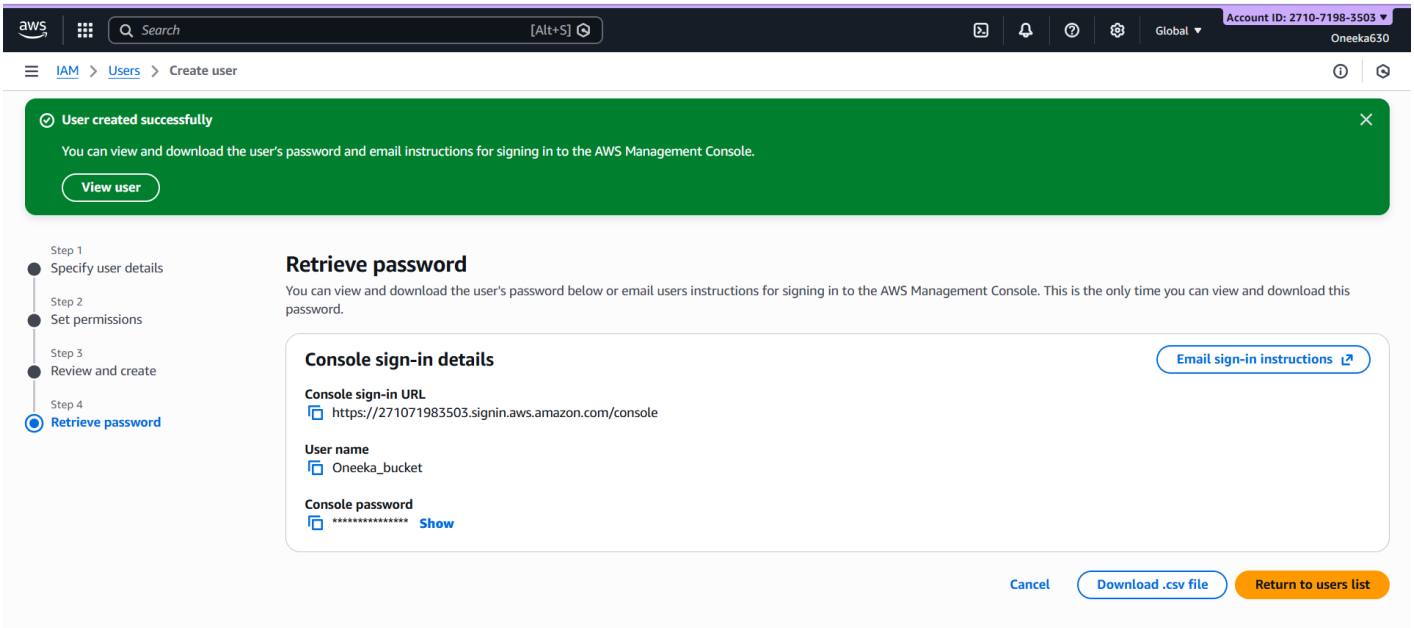


Step5: Select the group->click next



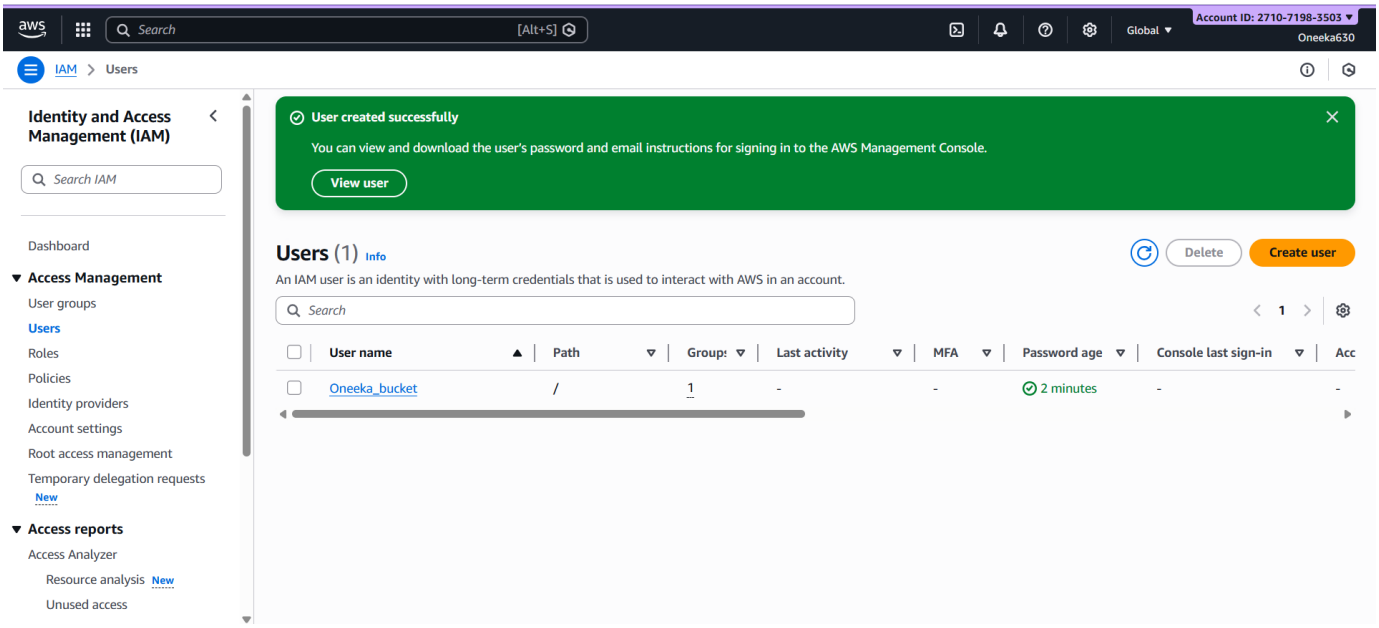
Step6: Click create User.



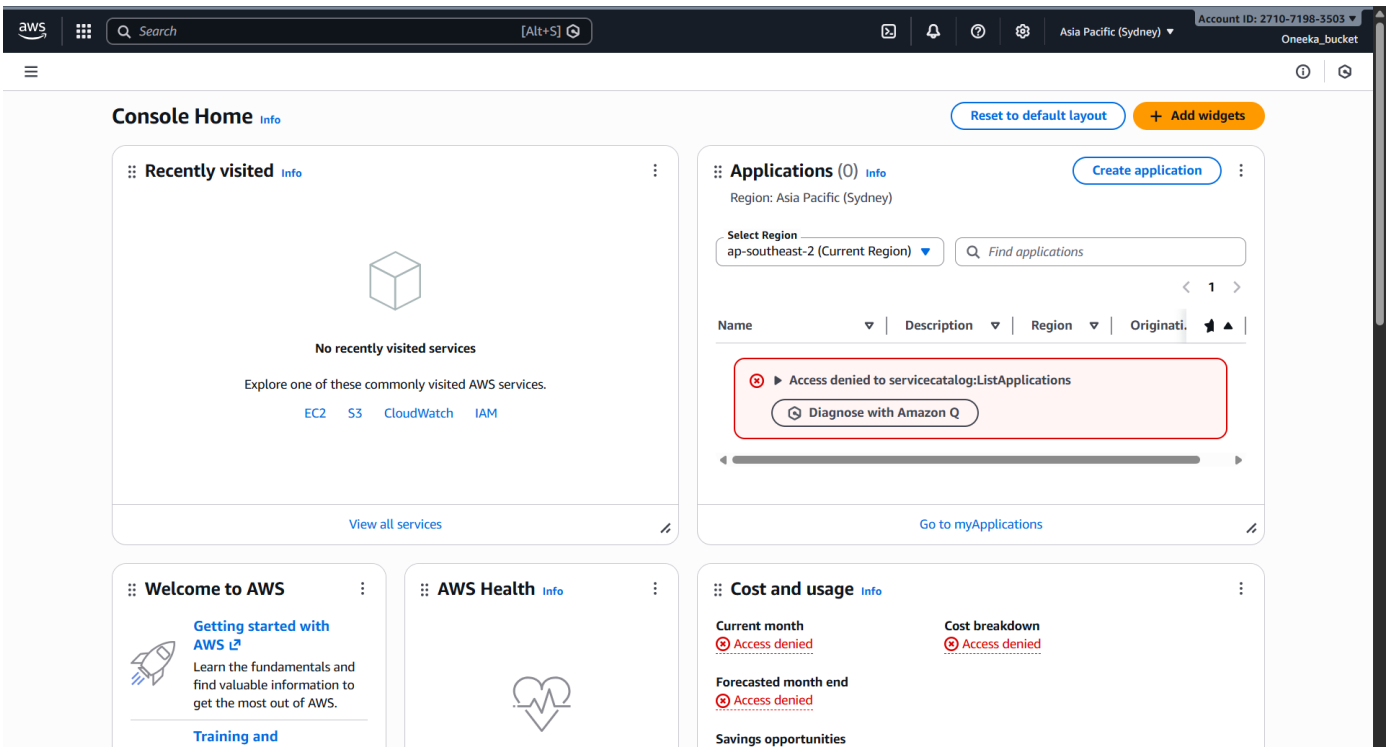


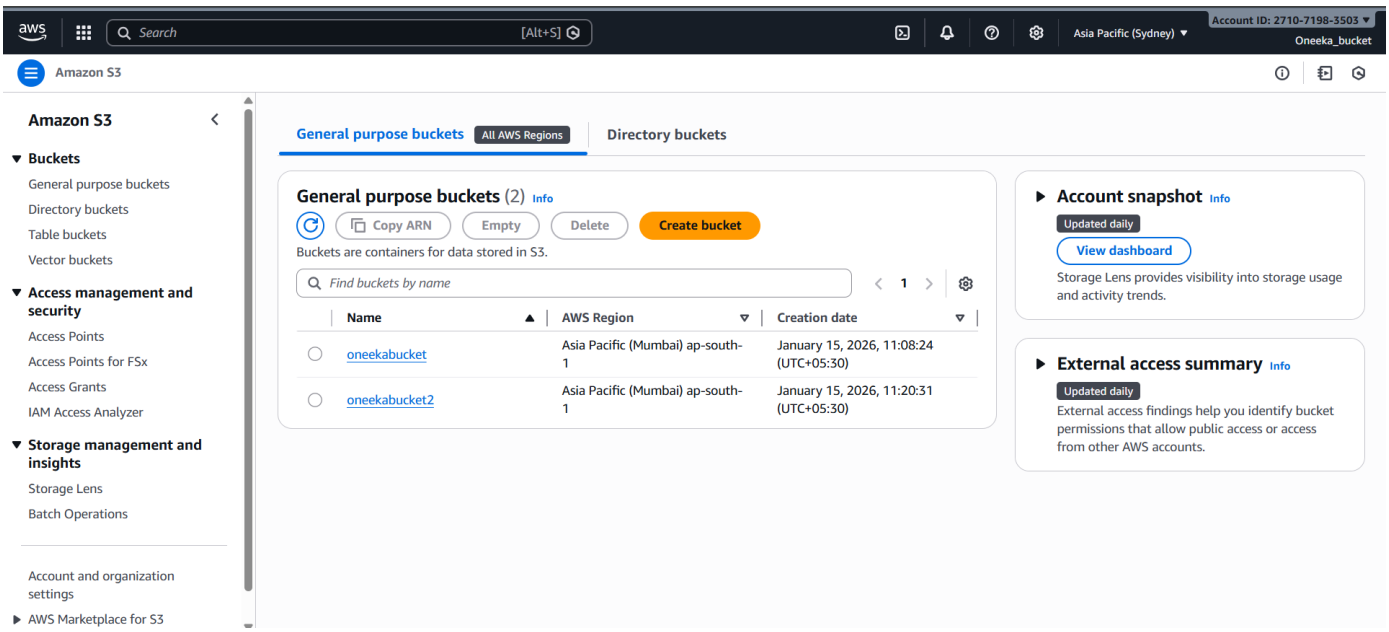
User created!!!

Step 7: Return to use list



Inside the IAM USER :





S3 access given !!
